

Tandem Diabetes Care Launches t:simulator™ Demonstration App

SAN DIEGO, Feb. 20, 2015 /PRNewswire/ -- Tandem Diabetes Care®, Inc. (NASDAQ: TNDM), a medical device company and manufacturer of the t:slim® and t:flex™ Insulin Pumps, today announced the release of the t:simulator™ App, which mimics touchscreen interface and features of the t:slim Insulin Pump. The t:simulator App is compatible with iPhone®, iPad® and iPod touch® and is available on the App Store™ at no charge. A version of the app for Android™ is currently in development.

"The t:simulator App is a modern way for people to experience the simplicity of the t:slim Insulin Pump interface," said Kim Blickenstaff, President and Chief Executive Officer of Tandem Diabetes Care, Inc. "By offering the first and only insulin pump with a touchscreen, we're able to leverage our technology to display the t:slim Pump interface on other touchscreen devices. This allows people to experience the pump's simplicity without having one in hand, and provides a convenient reference tool for healthcare providers."

To learn more and to download the app, visit:

www.tandemdiabetes.com/tsimulator or <http://appstore.com/tsimulatorapp>

The t:simulator App mirrors the same steps used on a t:slim Pump for many of the most commonly used insulin pump tasks. It also offers "Tool Tips" that walk the user through key features and menu items. Tool Tips can be turned on or off at the user's discretion.

The app is for demonstration purposes only. Due to the variety of sizes of compatible devices, the t:simulator App may not display the t:slim Pump interface at its actual size. Please refer to the Technical Specifications in the Resources section of the app for more detailed information. This app is intended for ages 12 and up.

About Tandem Diabetes Care, Inc.

Tandem Diabetes Care, Inc. (www.tandemdiabetes.com) is a medical device company with an innovative, user-centric and integrated approach to the design, development and commercialization of products for people with diabetes who use insulin. The Company manufactures the t:slim® Insulin Pump, the slimmest and smallest durable insulin pump currently on the market, and the t:flex™ Insulin Pump, the first pump designed for people with greater insulin requirements. Tandem is based in San Diego, California.
